About Our Company

Welcome to Grupo Industrial Innous, your strategic partner for manufacturing in Mexico. We specialize in producing the specific metal parts you need by leveraging our premier network of highly-skilled Mexican suppliers.

Our mission is to simplify your manufacturing process. Instead of managing multiple suppliers, you only work with us. We handle everything from finding the right manufacturer for your project to overseeing production and managing all the logistics. Our service provides a single point of contact, ensuring a seamless and efficient experience from start to finish.

Mission and Vision

Mission

Facilitate the sale of metalworking industry services from Mexican workshops to American companies, optimizing sales processes and ensuring high quality standards and expeditious logistics. Promoting efficient growth for both parties, building long-lasting relationships based on trust, excellence and fair prices.

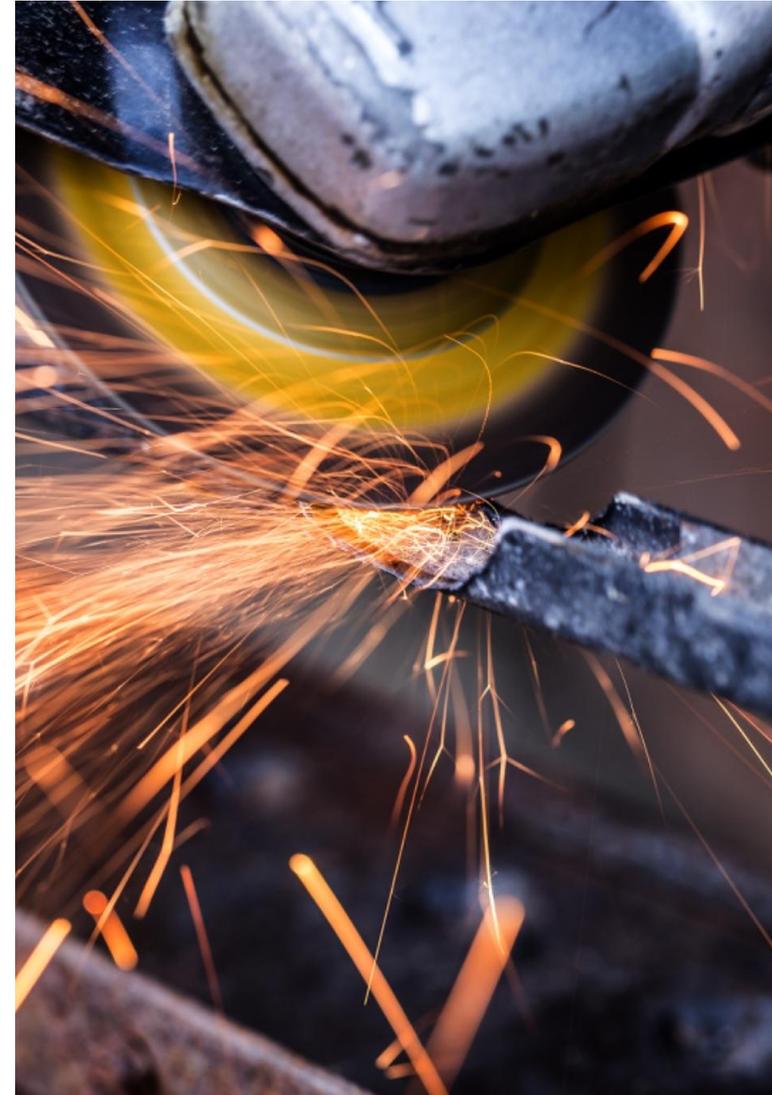

Vision

To be the leading company in sales and logistics management, becoming the preferred strategic partner in the metalworking market. We aim to integrate services for small and medium-sized workshops in Mexico, simplifying the acquisition of services for companies in the United States.

Our Policy

At Innous, our policy is built on three core pillars:

- **Quality Assurance:** We are committed to delivering excellence. Our rigorous quality control processes ensure that every component meets your exact specifications and the highest industry standards.
- **Efficiency and Reliability:** We understand the importance of your deadlines. Our management process is designed for maximum efficiency, guaranteeing on-time delivery without compromising on quality.
- **Customer-Centric Approach:** Your success is our priority. We handle all the complexities so you don't have to. We work closely with you to understand your specific needs and maintain clear communication throughout the entire manufacturing process.

Our Commitment

Quality

Maintain high standards of quality and reliability across all projects to meet and exceed client expectations.

Service

Continuously improve our services and processes to maximize client satisfaction and trust.

Relations

Build strong, collaborative relationships with clients to drive sustained growth and mutual success.

Process

Optimize operational processes to deliver fast, efficient, and cost-effective solutions tailored to client needs.

Our Services

Foundry

We provide access to high-quality casting services in various alloys, allowing the creation of custom parts with excellent strength and finish, ideal for multiple industrial applications.

Fabrication

We facilitate the manufacturing of metal structures through sheet metal services that guarantee strength and adaptability. Each project is carried out with attention to detail to meet the highest industrial standards.

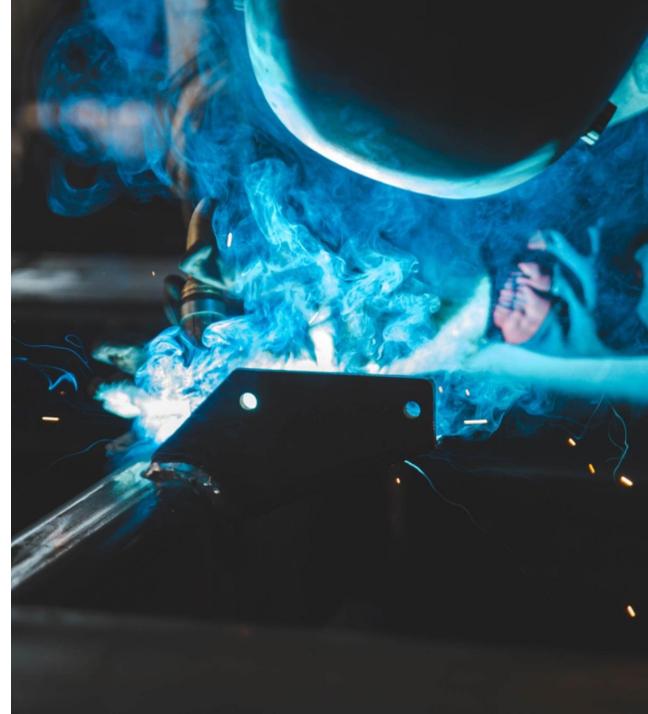

Machining

We offer machining solutions, from conventional processes to CNC, ensuring precision and quality in each piece. These services cover everything from simple projects to complex production, always aligned to the specific needs of each client.

Cutting and Printing

We provide cutting and stamping options using cutting-edge technology to ensure precise shapes and flawless finishes, ideal for both mass production and specific projects.

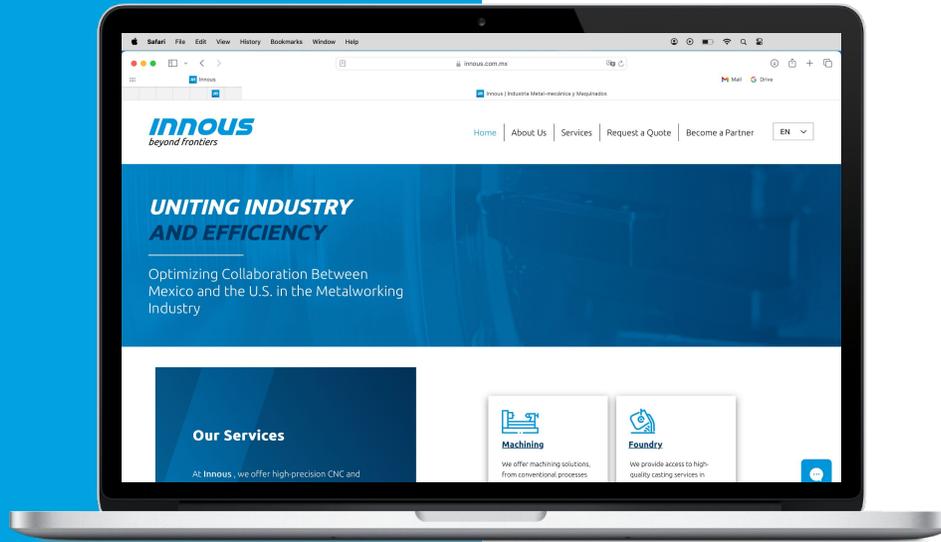

Delivery and Logistics

At Grupo Industrial Innoos, we manage the entire logistics chain so you don't have to. We ensure a seamless process from start to finish, including:

- **In-Country Transportation:** We coordinate the efficient movement of raw materials and parts between our network of Mexican suppliers.
- **Consolidation & Quality Control:** All components are consolidated at our facilities where we perform a final quality inspection to ensure everything meets your standards.
- **Final Delivery:** We handle all arrangements for returning the finished product to your location, providing a single, hassle-free shipment.
